Wander & Lost

Music video - Treatment by Ella Strickland de Souza

# Overview

- Black and white video.
- Themes of fixated love, loss, loneliness, waiting.
- Three separate narratives side by side all working towards a climax.
- Balloons and water as motifs.

# Locations

The video will be filmed across three locations; a lake/woodland, by the river in a city (London) and a hotel.

# Narrative 1

## The lake / woods

A female figure walks slowly through a forest holding hands with a balloon person. They eventually reach a lake and the woman lets go of the balloon's hand and leaves it behind on the shore as she enters the water with her clothes on. She lies back and floats, the lake begins to fill with floating balloons. Eventually, peaceful, she leaves the water to find a real person waiting for her. Possible filming locations: Epping Forest or Lea River (London).

# Narrative 2

## The city

Central London at night, it is raining. The camera looks through the window where a man sits at a table looking pensive. He gets up to leave and starts walking through the streets. Somewhere along the way he picks up a balloon and walks with it until he reaches a river. Water begins to fall down his face and balloons start to fill the street. Possible filming locations: Southbank and Covent Garden.

# Narrative 3

## The hotel

A high-class but anonymous hotel. In the hotel elevator, a woman exits and walks to her room down a long corridor. She goes to the window and looks out. She opens the mini bar but doesn't take anything out. She enters the bathroom and gets in the shower with her clothes on. The water flows over her, the bathtub begins to overflow with balloons until the room is filled.

# Outfits

Monochrome to contrast the white balloons. Formal and minimalist so as not to detract from the surroundings. Everyone should be different but linked in style: suit and white shirt, dark polo neck, white shirt and trousers/dark skirt, formal dress. Plain, no patterns but texture can be good to show up in black and white.

# The band

Grace - vocals/synth

Adam - guitar

Ritu - drums
